Building a Knowledge Organisation Systems (KOS) Observatory

1) Describes KOS as complex systems
2) Aims to rescue endangered KOS and make them FAIR
3) A project to ensure persistent access to cultural and scientific research data
4) 105 Social Sciences & Humanities KOS recorded (Life Sciences observatory underway)

DANS: Netherlands Institute for Permanent Access to Digital Research Resources

DANS encourages researchers to make their digital research data and related outputs Findable, Accessible, Interoperable and Reusable. We provide expert advice and certified services. Our core services are: DataverseNL for short-term data management, EASY for long-term archiving, and NARCIS, the national portal for research information. By participating in (inter)national projects, networks and research, DANS contributes to continued innovation of the global scientific data infrastructure. Open if possible, protected where necessary.

DANS is an institute of the Dutch Academy KNAW and funding organisation NWO.
